

Major veggie update

We thought it was high time for a bit of a photo extravaganza for you to show you what's going on in the garden.

So without further ado and with a fanfare...

Broccoli and sprouts

There were a bit of an experiment this year, we weren't sure what to expect or to be honest just how much space they'd take up. However it's looking good for purple broccoli.

So what other exciting greenery can we show you? Well how about carrots?

Although I should point out that the actual carrots are purple and yellow.

Courgettes

Actually wait a minute they are yellow.

Ok... Beetroot

Oh I give up... How about I just show you lots of pictures of our fabulous veggies?

And our herbs

So... Tomatoes then?

The wait is on... 27th of July I'm having a BBQ as it's my birthday weekend... I'm planning to eat this lot.
